

Lauren Maltby, Ph.D., ABPP

Clinical Psychologist

Director, SAFE Families Developmental Assessment Clinic

(Emphasis Area: Child and Adolescent)

Dr. Maltby is a board-certified child and adolescent psychologist and an infant-parent and early childhood mental health specialist (California Endorsement). She is the supervising forensic psychologist at the Kids In Dependency Systems (KIDS) clinic, which is under the auspices of the Department of Pediatrics at Harbor-UCLA Medical Center. She attends in the SAFE (Securing Attachment For Emerging) Families clinic at Harbor-UCLA Medical Center, and is the director of the SAFE Families developmental assessment clinic. Dr. Maltby also trains predoctoral psychology students. Her research focuses on long-term outcomes for infants and children in the child welfare system.
